Make School
2016

iOS Development

8-week iOS product development course. Shipped a product to the app store and presented a demo to the public.

EXPERIENCE

Contact
2016

Founder/Developer

Real-time contact management app in iOS developed over 10 weeks. Expedites exchanging contact information between people through the use of unique codes and a real-time database. Contact information is synced automatically across all of the user's Apple platforms. Available on the app store. www.getcontactapp.com
A technical demo of this product is available here: youtu.be/gQFNfwTYaoA

The Number
2015

Developer

Built and shipped an internal iOS app for a delivery startup at Brown University. It distributes customers' orders to the deliverers after calculating the optimal route given several input destinations. It calculates and keeps a log of the costs of operation and profit based on the routes and the surges.

DailyCheckr
2014

Developer

Built and shipped an Android app for personal use. Helps build productive daily habits by sending reminders of daily goals at a set time of the day. Available on the Amazon Appstore: amzn.com/B00R13AEC8

Skills

Production-ready languages: Swift, Objective-C, Java, Python, OCaml.

Proficient tech: AWS, Twilio, Git, Firebase, Parse, SendGrid, MongoDB

OTHER

LPYOS
2012 - Present

Co-Founder

Co-founder and past VP of Livermore-Pleasanton Youth Outreach Symphony, a non-profit musical outreach group in the bay area with over 60 active musicians dedicated to providing entertainment to those in need.
