Relevant Coursework: Object-Oriented Programming, Algorithms and Data Structures, Functional Programming and Analysis, Discrete Structures and Algorithms, Statistical Inference, Linear Algebra.

Make School iOS Development
2016

8-week iOS product development course. Shipped a complete product to the app store and presented a demo to the public.

PROJECTS

Treble A comprehensive toolkit for musicians in iOS written in Swift. It combines the most essential tools for musicians – tuner, metronome, and tone generator – all on one screen in an easy-to-use interface. Beta version was released in late October, and public version was released November 15. Currently at ~2700 downloads and 20 5-star ratings. Available here: www.treblenow.com

Contact Real-time contact management app in iOS written in Swift. Expedites exchanging contact information between people through the use of unique codes and a real-time database. Contact information is synced automatically across all of the user's Apple devices. Beta version released October 15. Currently has 100+ monthly active users. Available on the app store. www.getcontactapp.com An extensive technical demo of this product is available here: youtu.be/gQFNfwTYaoA

The Number Built and shipped an internal iOS app for a delivery startup at Brown University. It distributes customers' orders to the deliverers after calculating the optimal route given several input destinations. It calculates and keeps a log of the costs of operation and profit based on the routes and the surges.

PRODUCTION-READY SKILLS

Languages & Tools Swift, Objective-C, Java, Python, OCaml, Racket, HTML, CSS, Javascript, JQuery, AWS, Twilio, Git, Firebase, Parse, NoSQL.

OTHER

LPYOS Co-Founder
2012 - Present
