JUN HO HONG

(925) 667 6465 | junho_hong@brown.edu | www.junho.co

Objective

Internship: Technical internship in software engineering, mobile development, or web development.

Freelance: Freelance work in iOS/Android/Web design and development.

Education

Brown University

  -Sc.B Computer Science (2015-2019)

Relevant Coursework

- CSCI 0150: Introduction to Object-Oriented Programming and Computer Science
- CSCI 0160: Introduction to Algorithms and Data Structures
- CSCI 0170: Computer Science: An Integrated Introduction
- CSCI 0220: Introduction to Discrete Structures and Probability

Projects

- "The Number" - iOS App Development for a delivery business on campus. The app finds the optimal route to several input destinations and calculates cost of operation and profit based on the route and the surge of the day. The app then sends appropriate text messages to customers and deliverers.
- thenumberdelivery.com   Web design and development for The Number.
- junho.co Web design and development.
- All projects, including coursework in Java and OCaml available at github.com/junhohong

Skills

- Swift, Objective-C, Java, Python, HTML, CSS, jQuery, PHP, Racket, OCaml, Scala

Activities

- San Francisco Symphony Youth Orchestra, Brown University Orchestra
